Meeting #02

Today's Agenda

- **Review our structure for remote collaboration**
- **Present the current project ideas** (2min each)
- **Method to help pick a project**
- **Discuss next steps** (recruit, report on projects, website, …)
- (optional) **Start projects tonight!?**

Structure for Remote Collaboration

- **Slack channels for internal discussions**
  ~~https://data4good-no.slack.com~~
  https://DataForGood-Norway.slack.com

- **Github for development & project management**
  https://github.com/DataForGood-Norway

Current project ideas

- **United Nations' Challenges**
  https://github.com/DataForGood-Norway/project-ideas/issues/7
  (deadline missed, but...)

- **More local challenges:**
  https://github.com/DataForGood-Norway/project-ideas/issues
  - Shelters for homeless
  - NAV job seeking
  - OrcaTag
  - Local NGO's digitalization
  - ...

Pick most relevant projects... for you!

Many ways to filter the most relevant projects:

- **Type of skills required**
  Development (UX, Data Science, mobile app, ...), project leader, business/expertise domain, ...
- Prefer working on a **local** or **global project?**
- **Classify the projects to help compare them:**
  - Urgent/non-urgent
  - Important/non-important
  - Easy/realistic vs difficult/unfeasible
  - Potential for becoming a sustainable lucrative social/environmental business?
  - Is the project scalable (i.e. re-usable)?
  - How many man-week would you estimate to spend on this project?
  - Does it require specific domain expertise?

Next Steps/Action Plan

- **Next meeting(s) objectives**

  Recruit more (use existing meetups!?)

  Status of on-going projects (How much time do we give ourselves?)

  When is meeting #3?

- **Organization's tasks:**

  - **Better website** (Projects portfolio, forms for new volunteers and for new project ideas)

  - **Contact sponsors!?** for cloud services (Amazon/Google/Microsoft) & spaces!?

  - **Volunteers for organizing the coming meetings?**

    Noise on social media, engage people for building the agenda, …
